We cannot but speak the things which we have seen and heard. Acts 4:20

After several years of effort to get folks of this county to do something about the '6 counties in 1 county' system of county government, I have about decided to call it the dog and wet the fire. Nobody else seems to give a damn about the matter I can stand, it if other citizens can. I think I will quit beating on cold iron. I still think the county should be RE-districted, according to my plan or another plan; or that the county should go to the county-unit system. Others are interested, of course, but nobody seems willing to do anything. The supervisors are my friends; the county is one of our very best customers. Whythehell should I worry myself worrying with the matter. I quit.

Hon. A. M. Carothers has recently returned from a trip to Philadelphia, Washington and New York, looking after some legal affairs for one of his clients. In New York, he was privileged to be with Larry Noble on a tour of the United Nations Building and saw Miss Virginia Fehols who is connected with Cook's Tours in the United Nations Building. Of course, he saw many interesting things in Philadelphia and Washington.

Items about the Morris Mabry family: Rayford Limberg Mabry, son of Morris, got back, discharged from the army, Tuesday, much to the delight of his family and friends. Morris himself eased Bet Horn's pains by bringing Bet an old-fashioned buckeye recently. Hope Bet has better luck now for a while.

Dear Gene Selby, Vicksburg: please return those papers you have of mine. Thank you.

Lloyd Hopgood, now in Chicago, wants to get the GCW there. He will get it for 6 months as he send in half enough money for a year.

Most subscribers know, but a few still dont know that our subscription price went up to $3 a year last November - a year ago.

Listening to WNAG after noon on Wednesday I heard about the big feed that Horace Tilghman was giving his fellow churchmen that day.

As good as squirrel stew is when prepared by Harry Mills, it was a notable feat that the Wildlife League committee filled around 300 members and guests with stew and trimmings last Thursday night at the city hall. It was a fine affair and we add our congratulations to the League and to the working committee.

Dink Thomason told me Thursday that, at long last, he has a clear receipt from the Federal Land Bank on money borrowed 39 years ago. I happen to know that Dink had the worst case on arithmetic I ever knew (I had a bad case myself) and I want to be among the very first to congratulate him.

A wild tale got out in Grenada that the city 'law' shot a Negro and threw the body in the river. They have been dragging the river for the body. But Mr. Crumby, the head 'law' for the City, told me that they neither shot the Negro nor shot at him.

Landron Vaughn, former officer in the city's police force, and who either resigned or was fired recently, is back at his old trade, that of electrician with Tanner, the electrician.

At long last, our stupid cat, Buckingham got fed up on Enid bass, so Mrs. Bloodworth came to his rescue Wednesday with some Grade A beef scraps. I just dont know what Buckingham would do if it were not for Mrs. Bloodworth.

Since notifying subscribers of their delinquencies, we have got in a pile of money.

I have at least one fancy cousin, Margaret Wheat, who never writes, but always sends a telegram from her home in Little Rock.

Barber Childs came in to see about those false teeth Shag Trussell found near the jail, and advertised for their owner. As for the teeth Shag advertised, a dude from Little Texas identified them, paid for the ad and got the teeth. It seems that Childs loaned his teeth to a fellow who has not returned them.

Next week, we hope to have our regular Thanksgiving column: What They Are Thankful For. Get YOURS in early.

I have been traveling from the point that became Holcomb and is now Holcomb to what has always been Oxberry all of my life, about 74 years, and got lost on the new route Monday. The State Highway Department is putting in a magnificent highway from Holcomb to Oxberry.

Just had a letter from Lamar Sledge, editor of Dekalb's Kemper County Journal, recommending that I read James Street's new book, 'The Civil War'. I shall read it whenever I can borrow a copy. I am one of Mr. Street's 'fans.'

Gore Springs 'Get Acquainted' Meeting Honor Rotarians

(By Gore Springs Correspondent)

Grenada Rotary Club members held a 'Get Acquainted Community Meeting' in Gore Springs High School gym on Monday night, November 16, and honored their 24 community guests with a dinner on this occasion.

Under direction of Mrs. C. C. Richardson, members of Gore Springs P. T. A. assisted by home ec students, served the three course dinner on a u-shaped table draped in white and centered with interesting arrangements of driftwood and vines laden with clusters of grapes. Completing the decorative scheme was a larger centerpiece in the center flanked with silver candelabra holding green lighted tapers.

President Donald Ross presided at the meeting, following the dinner Rev. Taylor Clarke led in singing America and offered a prayer.

Maurice Phillips, PTA President, welcomed the Rotarians.

Program Chairman, Rodney Defenbaugh presented C. O. Sennett, county agent, who introduced the guest speaker, Mr. M. I. Parnell, county agent of Lee County and vice president of the State Association of County Agents.

Mr. Parnell discussed community building and emphasized the importance of cooperation and work in the accomplishment of this task.

The people in Gore Springs community feel that this get acquainted meeting has been beneficial to us and that it will strengthen community building in Grenada County.

GIRL SCOUTS CAMP PLANS REVEALED
12 Counties To Cooperate In The Project

Girl Scout boosters and other civic leaders from 12 counties were scheduled to meet at the Greenwood Leflore Hotel in Greenwood this Thursday afternoon to make plans for building a beautiful Girl Scout camp on Cedar Point, a 165 acre peninsular at the Grenada Dam which the U. S. Engineers have leased to the Mississippi Girl Scout Council.

The plan is for Scout leaders from the 12 counties to chip in and help build the camp and share its facilities equally with the Grenada Girl Scouts.

If plans work out as anticipated, eventually the camp will be for Scouts from all over Mississipi. Later, out of state Scouts may possibly be admitted.

As envisioned by Scout leaders, the camp will ultimately be one of the show places of the South. It will be the first Girl Scout camp, fully owned and operated by Scouts in the United States.

Miss Mary Elizabeth McNeill, president of the Grenada County Girl Scout Council, has been working hard for a long time to bring about the establishment of this camp. Miss Mae Caldwell is treasurer, Mrs. Robert Bienz and Mrs. O. S. Kent secretaries and John Lake, finance chairman. Miss McNeill explained the plans for the camp to the Board of Directors of the Chamber of Commerce and other interested persons Tuesday afternoon.

Among those from here who are attending the Greenwood meeting are J. H. Oliver, John Lake, Bill Fedric, Ed Embry, Mrs. J. M. Fra..., Mead Day, Miss Mae Caldwell, Miss McNeille and a number of members of the Girl Scout Council.

When completed, the camp will have room for between 900 and 1,000 girls each summer.

Roads and sewerage will come first of course. The first building to be erected will be an administration bui... which will house the dining hall and offices. It is anticipated that a New York architect, an authority on Girl Scout buildings, will plan the camp.

The site for the camp is one of the best at the Grenada Dam. It is surrounded on three sides by water and on a bluff. It is to be adjacent to the property where a sand beach is being formed.

Steps To Deter Further Gassing Taken

Grenada County School Supt. John E. Gray took steps Saturday to prevent further carbon monoxide poisoning of children riding school busses following the Friday morning incident in which 14 children from the Elliott District were somewhat overcome with fumes entering the bus from a faulty exhaust system.

None of the children were seriously affected and only seven were hospitalized. Most of them suffered only headaches, although treatment with oxygen and stimulants were used on some.

Mr. Gray has mailed letters to drivers of each of the 25 school busses in the county, advising them to make daily inspections of exhaust systems and tail pipes before they start out on their routes.

He said investigation revealed the tail pipe of the bus in which the children were gassed was bent, deflecting fumes through the floor of the vehicle. He said the pipe could have been bent as the bus crossed a bridge.

Mr. Gray said the busses were inspected thoroughly by the county mechanic before the 1953 school term began, but that additional inspections are made only when vehicles are brought into the shop for repairs.

He said daily inspections of the tail pipes should make it unnecessary for windows to be lowered while children are in the bus during cold weather. The windows were all closed in the bus in which the children were stricken Friday.

GRENADA DEFEATS CHARLESTON 32-13
In Last Home Game Of Season At Proby Field

(By Hugh Ketchum)

Capitalizing on every scoring opportunity, the Grenada Bulldogs upset the Charleston Warriors 32 to 13 Friday night in the final home game at Proby Field. It was the fourth win of the season for the local eleven in nine games and the third loss for the visitors.

The Bulldogs jumped in the lead in the early part of the game when Bobby Griffin passed 45 yards to Charles Davis on the Charleston 7. From there Ray Freeman plunged the line to score. Raper missed the kick for the point.

Charleston took the kickoff and marched down the field to score on a 69-yard drive in which Ray Freeman passed to David Sanders for the point.

Here is a little poem that has been going the rounds for years and I have been worried about the kind of influence it may have had on people.

"I had a little tea party . . . this afternoon at three . . . 'twas very small . . . just three guests in all . . . Just I, Myself and Me . . ."

But am not so worried now that Forbes Magazine prints one to counter-act the first one as follows:

Five most important words: I am PROUD OF YOU.

Four most important words: What is Your Opinion.

Three mos important words: If You Please.

Two most important words: Thank You.

Least important word: I.

Humility is a "conditioner" for all true happiness over the long pull. The greatest teacher of human relations, the one great Conditioner of human hearts said to us "Blessed are the poor in spirit: for theirs is the kingdom of heaven" and I believe it with all my heart. If some of these people who considers the fellow with a 'poor spirit' as unfortunate nad a failure could get a better understanding of things they would admire and respect the enlightened ones who feel a spirit of lowliness who know they are under the protection of a King who has already promised the whole new kingdom to them out yonder in the future. Those who think this earth and all thats in it is a free ride for the greedy and arrogant should check up on the property values in a couple ow towns named Sodom and Gomorrah.

We hopper it Major Archie Stubbs is willing his tour of duty on the Island of Okinawa. If so would like to ask him to look out for some new arrivals over there who have started crowing and doin to us. The Rev. Thomas is Captain and Mrs. Carl Blythe, an infant son, family left Pope Field recently scheduled to arrive Okinawa about November 2nd. Now Bevels formerly stationed at Tampa, Florida.

Do you want to know how to have a million dollars when you are old? Well, one way is to start at age 25 and save each week $427.06 out of your salary and when you are 65 you will have a cool million. But if you are well past 25 already this plan will not work so there is no use trying it. But there is a goodalternative, which is just give up the idea of ever having a million dollars and convince yourself that the most important thing in this world is happiness and why would we accosiate happiness with a million dollars? Read a story once about a man who had done many years of work as missionary in China. A large concern needed a man with his knowledge of the Chinese customs and language and they approached him with an offer of $10,000 a year then raised to $20,000 and then to $25,000 but the quiet little missionary said 'The salary you offered first is quite large enough, I am now making less than $1200 a year, but the treuble is your JOB is too little. You see, I have a much bigger job than that and I wouldn't consider a change just now.' And there you have the answer to the question is money all important!

Sorry to be late with these birthday anniversaries, but in November our friends in Grenada are having their birthdays as follows: John P. Pressgrove (Natchez), 2nd; Charlie Dattel, 3rd; Minnie Woods, 4th; Miss Lizzie Horn, 10th; Bob Townes, 11th; Ray Bass, 16th; Bill Morris, 17th Wayne Wenger 21st, (who's your partner now, Wayne . . bet you miss Jack); Spivey Kent, 25th; Ed Penn, 25th; Fred P. White (deceased) 25th; Killowat George Kelley, 28th; The topaz guards fidelity . . . This you should remember . . and plant chrysanthemums for hope . . If you were born in chill November. Your lucky months are January and July, and your lucky day is Tuesday.

There aint many Whitakers, but some of them get around. I note that A. W. Whitaker, Iv, is associate editor of The Spectator, humor magazine of the University of Virginia, and is quite an artist with pen and ink. This boy is my 1st cousin's son. The late A. W. Whitaker, my grandfather, and this boy's great grandfather, was born in Grenada somewhere about 1825. And there has been an A. W. Whitaker, somewhere, ever since. A. W. Whitaker, III is a Presbyterian minister in Hines County. A. W. Whitaker, Jr., my father's brother, was born here, but spent most of his long life in Memphis. The first A. W. Whitaker built the row of stores from Spain's to and including Cuffs' before the Civil War.

Ann Duncan is also in the University of Virginia. I doubt that Ann and Alex Whitaker know each other, although their great grandparents were friends and associates back in Grenada County nearly a century ago.

With Mabel gone all last week, I merely 'made out', as the saying is.

Granville Ligon, J. Z. Pryor and I were reminiscing about the depression years of the 1930s, about turnips seasoned with rabbit, five cent cotton, five dollars a thousand for sawing lumber, Model T's yet neither one of us recalled a single individual who starved to death or lost much weight thru malnuatrition. They lived east of Grenada, I lived west of Grenada, but conditions were the same everywhere. Every man faced about the same conditions and neither of us regret having lived thru that era.

Wonder how Brother Wiley is getting along with his evangelistic work?

Wonder what become of G. A. Duncan and wife who were supposed to come by to see us during the latter part of October?

We sent out a bunch of polite little statements to our delinquents last weekend. The first responses, as is usually the case came from those who had already paid up. I hasten to say that our system of keeping up is not perfect. We, too, make mistakes but are always happy to correct the mistakes.

John T. Leverette of Route 4 would have got a statement, but he paid up before hand. Maybe he got one anyway. There is no telling. If he got one, just tear it up, Brother Leverette.

I just dont know who Cheerior 11 in Grenada is, but I do know she took a lot of trouble to locate Mabel (then on LSU campus in Baton Rouge) for us Saturday. We had a number of a 'phone which WAS next door to Caroline, but Caroline had moved back to the hotmert area. The former neighbor told Operator 11 another clue and she tracked it down and it was not long before I got in contact with Mabel, who was then babysitting Caroline's older side, while Caroline was abed with the new kid. Telephone girls are always found 'on the job', and their job is to get folks in telephonic contact with, interested in, whatever and whatnot, such other oftentimes very mundane, detective-like traits.

From Here To Eternity at the Grenada Theatre next week did not seem to show how it should be in the army, but only how they ARE. There is no [illegible] a month of Sundays and the two things are [illegible]

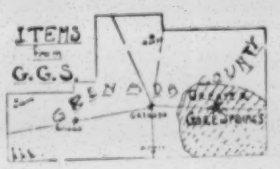
WORK RESUMED ON BUILDING OF NAT. GUARD ARMORY

After a long delay, caused by the failure of a shipment of steel to arrive during the summer, work is again underway on the National Guard Armory at the Fairgrounds. Work was resumed when the steel arrived.

Capt. Billy McMaster said that the contractors, Morcton and Pell, estimate now that the Armory will be finished by the first of the year.

He added that the construction of the strong-room, similar to a bank vault, would slow down work considerably. The strong-room's roof made of concrete, has to set three weeks before the forms can be taken down, then it has to be plastered inside and out.

The Armory is one of 10 to be built in the state and is to cost about $50,000.



Friends and relatives of Mrs. C. L. Trussell are glad to know that she has recovered from a recent illness to the extent that she has resumed duties in her home. During recuperation, Mrs. Trussell visited in the homes of her daughters, Mrs. Edwin McCormick and Mrs. Edwin Chamberlain in Grenada.

Never a day passes in our office when some question of clear title is not raised in reference to land. The courts are crowded with land litigation—often people lose their land because of a hidden title hazard.

You would not buy a house without fire insurance, yet if the house burns you still own the lot. If your title fails all is lost unless you have title insurance. Ask your attorney about hidden hazards. One premium of only $3.50 per $1,000.00 of value affords complete protection.

Let Thanksgiving fill our hearts

EACH YEAR, at this time, we attempt to express certain thoughts that are in our minds and hearts. These thoughts are not complex. Nor are they difficult to express, except for finding phrases to convey the depth of our gratitude.

Perhaps the small card illustrated at the top of this advertisement will help. It's a card you will find on the tables in our dining cars. Folks call it a "Prayer Card." On it are three prayers—one Catholic, one Protestant, one Jewish.

These cards reflect our belief that religion reaches beyond church and home . . . to our daily work and pleasure. These cards are symbols of our thanks for the privilege of serving those who live along and use our railroad.

It is with profound sincerity that we here express our gratitude that the Illinois Central each year finds fresh strength to help nurture the industry, the agriculture and the well-being of all our neighbors in Mid-America.

Help The Hungry

Lesson for November 22, 1953

AS CHRISTIANS, we owe a great deal to our mother-religion, the religion of the ancient Hebrews. Two of the characteristic strong points of that religion are ours too: one is that religion has everything to do with our everyday life, and the other is that society (that is, the persons who make up society) has a sacred duty to care for the weak and friendless. Now in ancient times the most helpless people in the community were the widows, the orphans and the "sojourners," that is to say, migrants, people without land or family, uprooted and displaced persons. Widows had very little chance at a living except by almost slave-labor; orphans even less; and as for the sojourner, in most places in those days even his life was in danger. If anybody started for an ancient city, it would be the sojourner first, then the widows and orphans.

Dr. Foreman

An Ancient "Poor-law"

The Hebrews were taught carefully, from Moses' time onward, that God loved the helpless—orphans, widows, aliens and sojourners; and the Hebrews were commanded to take care of them. Something can be learned from a study of the ancient laws protecting these poor persons, laws which the Hebrews believed and so can we, that God himself inspired. They are not laws which we can copy unchanged, for conditions of life and work have changed. But the spirit of them is as fresh and as needed today as three thousand years ago. Consider this from Deuteronomy: "Love the sojourner therefore, for you were sojourners in the land of Egypt."

There is a certain rich man in America whom we may call Mr. X. He came to this country when a boy, an immigrant son of very poor parents. Had he stayed in the old country, he himself thinks he would have had to live and die at his father's ill-paid trade. In America's freedom, however, this boy rose to riches and honor, and is now a man who loves to talk of the "American dream" and of how he himself is an example of it.

But what does Mr. X think of encouraging others at this present time to come over and try the American dream for themselves? He is opposed to it. He wants no more immigrants. He is glad the door was open to himself; he wants it closed now for good. But he does not stand alone; he gets re-elected to congress by several thousand other Americans who do not love the sojourner. "Love the sojourner" means have a concern for migrant workers, for displaced persons, for immigrants, for oppressed minorities. America can hardly call itself a Christian nation unless it takes such laws of God more seriously.

• • •

Helping Men To Help Themselves

Another and more particular law is found in Leviticus 19, where the farmer of those days is forbidden to harvest either his wheat-field or his grape-vineyards clean. He must always leave some wheat ungathered, some vines untouched. We see how this worked in the case of Ruth who would have starved had she not had the chance to glean (pick up those stray sheaves) in the fields of Bethlehem.

This is not a law we can copy right on to our statute books; but we may well copy its spirit and intention. First there is a real concern for the man at the bottom of the ladder. Then there is given him an opportunity to work for his own living. Wheat and grapes are not delivered to his door; he has to get out and work for his food. But the point is that he is helped by being enabled to help himself.

• • •

Hunger Around The World

In the time of Moses, and of Jesus, indeed till most recent times, our neighbors, those whom we could help, were those whom we could see, within walking distance of our homes. No doubt there were famines in India, floods in Japan, while Jesus was living. But he never said a word about aid to India, because in the first place the Galileans themselves lived on the edge of starvation, and in the second place if they had had a million tons of surplus wheat they could never have reached India with a quart of it. In our day the world is smaller.

Since I am on a diet, I guess it is a good thing for me that I was late getting back from Enid to Grenada Monday and, therefore, missed being Mayor Clanton's guest at the meal served the Rotarians by the Gore Springs folks. I learned a good while ago that being on a diet just don't mix with Gore Springs meals, Jewish weddings and Italian affairs. All groups mentioned put on a big show when the dinner bells ring. Thanks, anyway, Mayor Clanton.

Another BIG Telephone Year for Mississippi

For every working day in 1952, approximately $50,000 has been spent to provide additional telephone facilities here in Mississippi. The total for the year will exceed $11,000,000.

Here's part of what this expense will provide:

- Over 12,000 additional telephones.
- New buildings and equipment for faster, even more dependable service.

And there will be no let-up during the coming year in our effort to provide "the best possible service at the lowest possible cost"—the traditional goal of telephone people.

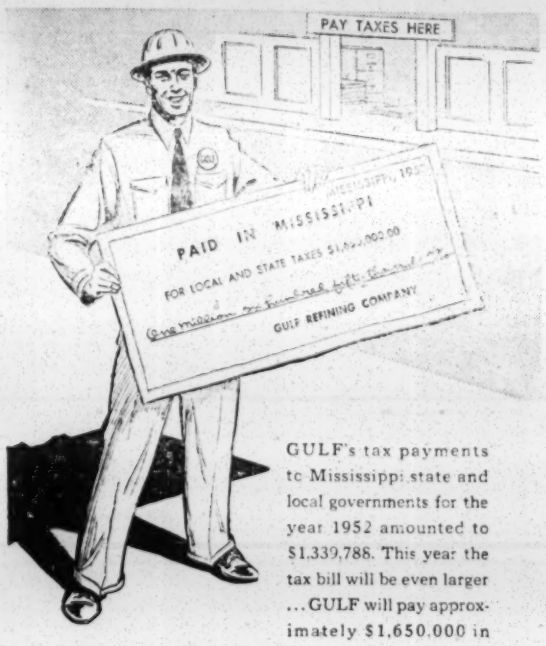
Important Money!



GULF's tax payments to Mississippi state and local governments for the year 1952 amounted to $1,339,788. This year the tax bill will be even larger ...GULF will pay approximately $1,650,000 in Mississippi taxes in 1953 ... (plus almost $5 million GULF collects and forwards each year to the appropriate city or county collector, or to the state treasury, in gasoline, kerosene, sales and use taxes).

That's important money ... and this figure doesn't even include the taxes paid by thousands of Mississippians who receive income from GULF activities: the company's employees, distributors and dealers, the suppliers who sell services and materials to GULF, and the landowners who lease their land to GULF or receive royalty payments on GULF oil or gas production.

The tax money collected from GULF is important money to Mississippi. These dollars are adding momentum to the economic progress which is bringing a better life to all Mississippians.

It's important money to GULF, also. Taxes are a big item in GULF's Mississippi operating costs.

In paying its share of Mississippi state and local taxes, GULF is joining every Mississippi taxpayer in assuring the continuation of financially-sound government and the further expansion of a healthy economy.

SOIL CONSERVATION
(By Rex R. Blue, SCS)

The Grenada County Soil Conservation District has received 10,000 lespedeza bicolor seedlings which will be available without charge to district cooperators desiring to establish wildlife plots or borders on their farms. Lespedeza bicolor produces a heavy seed crop which will remain on the plant until January and February when feed is very scarce. Lespedeza bicolor is an excellent feed for quail and other game birds. Farmers desiring to establish bicolor plots are requested to contact local Soil Conservation workers.

Charles Ligon has recently excavated 3000 feet of drainage ditch on a 50 acre bottom field that he has had cleared. The ditch will provide an outlet for drainage from another farm adjoining Mr. Ligon's farm on the south.

J. C. Cook, of Mt. Nebo, and Fred Lawrence of Grenada, have recently had farm ponds constructed on their farm. Soil Conservation Service personnel assisted in staking out the ponds.

Farmers who have had ponds constructed with ACP assistance are required to have the pond dams and spillways sodded with a permanent type vegetatoin, such as bermuda, before final certification can be made for assistance. Seeding will not qualify for payment. The sod may be placed in rows about 2 feet apart to prevent freezing.
